additional fixtures

Cap Moulding

Available in all colours, at 42mm thick, in 2400mm lengths in vinyl and 3600mm lengths in raw mdf

Rosette

Available 100x100mm as a standard, can be used in conjunction with the flutes to create a brilliant effect as shown

Flute

Available in all colours, at 100mm wide as a standard, and lengths up to 2400mm long

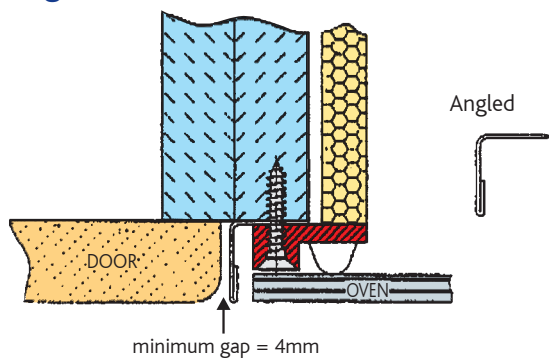

Back Panels

Imagine what you can create, a luxurious finish with a little imagination, the panel consists of a standard back panel with extra wide rail which are used to fasten the rosettes and flutes too

Heat Deflectors

Heat deflectors are designed to deflect heat away from vacuum formed doors. Designer Doors Plus recommends that deflector strips be used alongside ovens which do not have deflector surround.

Figure 1.

Please note that if deflector strip is not used where recommended the warranty will be voided.

Benefits of our vinyl wrapped doors

Simply wipe clean

Seals out moisture

Scratch resistant

Won't chip

Never needs painting

Metho is recommended for stubborn stains

A range of styles to suit every taste, from traditional to modern

A wide selection of colours

The very best quality at a very competitive price

At Designer Doors Plus we ensure satisfaction and we never compromise on quality and service
